

DEPARTMENT of the INTERIOR news release

FISH AND WILDLIFE SERVICE

For Release September 22, 1982

David Klinger 202/343-5634

FISH AND WILDLIFE AID TO STATES REACHES \$82 MILLION

Secretary of the Interior James Watt announced today that \$82 million in Federal Aid funds have been apportioned to the 50 States, Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Mariana Islands for sport fish and wildlife restoration and hunter education programs. The funds, which become available on October 1, 1982, are dispersed under programs authorized by the "Dingell - Johnson" and "Pittman - Robertson" acts.

This apportionment, obtained from excise tax collections in fiscal year 1982, is the first of two installments distributed this year to be used by the States to finance their fish and wildlife restoration programs. The second installment will be distributed after the tally of fiscal year 1982 tax receipts is completed by the Treasury Department.

Of the total funds available, \$54 million are for wildlife restoration, \$16 million for fish restoration, and \$12 million for hunter education programs.

Funds for wildlife restoration and hunter education programs come from an l1 percent excise tax on sporting arms and ammunition, a 10 percent tax on pistols and revolvers, and an 11 percent tax on certain archery equipment. Distribution of wildlife restoration funds is based on a formula which takes into account the number of hunting license holders and the land area of each State. These funds may be used on approved State wildlife projects such as the acquisition of land suitable for habitat, development and management of habitat, and research to aid in managing game species.

Distribution of hunter education funds is based on the relative population of each State. Funds may be used for State hunter education programs which include the construction, operation, and maintenance of public target ranges. The States, however, may also use these funds for wildlife restoration projects.

Fish restoration funds come from a 10 percent excise tax on fishing rods, reels, creels, and artificial baits, lures, and flies. Distribution of the funds is made according to a formula based on the number of fishing license holders and the land area of each State, including coastal and Great Lakes waters. Activities performed by the States include the purchase of land and water areas, construction and rehabilitation of lakes, development of access sites and facilities for fishermen, and research to aid in the management of sport fisheries.

The attached tables show the distribution of funds by State.
